

Secondary Subject Leadership

Maths Hubs Network
Collaborative Projects
2021/22

NCP21-15

Outline

Aims

This new work group offers focused support to secondary heads of department/subject leaders to develop in their role as leaders of mathematics education in a vibrant professional learning community.

It will also provide an opportunity for mathematics secondary heads of department/subject leaders to collaborate and network with other subject leaders across the departments in the SW London Maths Hub area, in order to share successes and explore challenges.

Background

The NCETM and Maths Hubs have had a long history of supporting individual teachers' professional development and initiatives through the secondary work groups. However, we recognised the need to provide specific support for secondary heads of department/subject leaders as well as providing a space for purposeful collaboration within this community.

Information

What is involved?

Participants of this project will be part of Work Groups exploring common themes, with bespoke adjustments appropriate to local contexts and needs.

Participants will have opportunities for: networking and input on current issues; exploration of materials to use with their department; development of collaborative approaches; ongoing development in their subject leadership role.

It will be important for all Work Group participants to benefit from the expertise and experiences of the group of departments represented.

Dates and location

The Work Group will run across four sessions across the year.

**First session (online): 3.00 - 4.30
Wednesday 26th January 2022 ***

* If the date or timing of the first session is a barrier to you joining this work group, please let us know and we can look at alternative options.

The facilitator will take into account the needs and logistics of the participants and respond accordingly in terms of timings and delivery of the following sessions.

How to Apply

Please complete the London South West Maths Hub [online booking form](#) to secure a place in the Work Group. If you require any more information please contact us by email to discuss your application.

admin@londonsouthwestmathshub.co.uk

What are the benefits?

Participants will:

- ✓ reflect on the unique challenges of their role and benefit from the experience and expertise of others
- ✓ be supported at strategic level and as leaders of change in their departments
- ✓ have the opportunity and time to reflect, with other subject leaders, on the vision for their department and experience of their students
- ✓ consider different approaches to PD in order to both support and empower their team, as well as promote a shared vision for teaching and learning
- ✓ evaluate their offer of a coherent and connected curriculum

What is the cost?

The Secondary Subject Leadership project is fully funded by the Maths Hubs Programme so is free to participating schools.

Covid-19 Recovery

Many positive lessons were learnt from online collaboration during Maths Hub activity in 2020/21. These will be built upon in 2021/22.

As the impact of the pandemic hopefully recedes, the result for Maths Hubs work may be a blend of face-to-face activities and frequent online collaboration.
