for Excellence in the  
Teaching of Mathematics

## Maths Hubs Network Collaborative Projects 2019/20

# NCP19-18 Year 5 to 8 Continuity

## Programme Information Sheet

### Overview

Teachers from different phases will work together in this Work Group, to improve communication between Key Stages 2 and 3.

- identify and address effective progression from Year 5 to Year 8
- improve rates of attainment
- share best practice in KS2 & KS3
- understand a collective approach to teaching for mastery which transitions from primary to secondary

#### Who is this for?

This project is for KS2 and KS3 mathematics teachers in the London SW Maths Hub region. Each Work Group will ideally consist of pairs of teachers from linked or neighbouring primary and secondary schools.

#### What is involved?

Work Groups will meet several times during the year, with participants engaging in gap tasks at their own schools and at other schools between meetings.

### Location and times

**Venue:** King Charles Centre, King Charles Road, Surbiton, KT5 9AL All sessions are run as twilights (16.00-18.15)

**Day 1:** Wed 8 January 2020 **Day 2:** Thurs 5 March 2020 **Day 3:** Thurs 2 April 2020 **Day 4:** Wed 20 May 2020

### Expectations of participants and their schools

Participants will be expected to

- Attend all Work Group sessions and meet between sessions to plan and carry out gap tasks
- Contribute to the national evaluation process through a short survey after the Work Group has finished.
